

Job Posting: SAP Business One Consultant 1

About Us:

VistaVu Solutions is a leading business management software provider - with experience, tools, and sector-specific software solutions to help well servicing, oilfield product manufacturing, distribution, construction and rental companies better manage their business processes and grow profitably.

We are currently one of the top SAP software providers to the oil & gas industry in North America. Every day we wake up with one purpose – to make good energy service companies great. We do this by driving efficiencies through these companies with our industry-relevant software and our award-winning staff. Our goal is to become the dominant SAP provider to small-medium enterprise oil and gas product/service companies in the world. We need you to help us get there.

The following are the Core Values we are looking for in a successful candidate:

- Integrity – We keep our word
- Growth – We work with a sense of urgency to deliver a positive experience
- Service – We serve our customers with empathy and results
- Commitment to excellence – Find the best way and build the best team
- Passion – We love making good companies great

Role Description:

We are currently looking for someone interested in providing business and technical software assistance to our new and existing client base. This is an inside role where travel would be minimal, if at all.

In taking on this responsibility you would be assuming a strategically critical role in our company so we are only looking for people with a proven track record of success in providing business and technical consulting services. We will hire based not only on skill set but also on mindset.

Job Requirements:

- Installation and upgrading:
 - SQL Server Database
 - SAP Business One
 - Paymate/Clarity
 - 3rd Party Add-Ons developed by VistaVu
- Development and enhancement of SAP Business One systems:
 - Troubleshooting and delivering SAP solutions
 - Update system configuration based on additional requirements
 - Enhance data mining capabilities of system
 - Data transfer
 - Customization of reports and development of queries
 - Training users as required
 - Document writing
- Development of reporting from SAP Business One and other sources by using SQL and/or Crystal Reports
- Testing new version of FieldVu

Preference will be given to candidates with expertise in the following areas:

- Varying operating systems
- Database essentials
- Network essentials
- Oil & gas industry experience

Preference will also be given to candidates with experience with the following software:

- Windows Server 2003, 2008
- Windows XP, Vista
- Windows 7
- Microsoft Office
- MS SQL Server 2005, 2008
- Paymate/Clarity
- Crystal Reports
- SAP Business One 2007 & 8.8
- FieldVu

If you think this is a role that you would be successful in performing, please send your resume to Jory Lamb, President of VistaVu Solutions at jory.lamb@vistavusolutions.com.

Thank-you for your interest. Only candidates selected for an interview will be notified.
